

The FAA Safety Team presents:

Developing Rotorcraft ASIAs: An Overview of HFDM-Associated Research at HAI HELI-EXPO 2016

Through the FAA's Aviation Safety Information Analysis and Sharing (ASIAS) program, both industry and government participants can share data and identify systemic safety risks and emerging system vulnerabilities. This session will explore the opportunities and challenges associated with expanding ASIAS to the helicopter community. Attendees will receive information on the latest safety analysis and helicopter flight-data monitoring (HFDM) tools, techniques, and capabilities that are being examined as part of the research effort, as well as how these initiatives can benefit both the helicopter community at large and individual operators.

This course is offered at the HAI Rotor Safety Challenge at HELI-EXPO 2016. These sessions are FREE to all HELI-EXPO 2016 registered attendees and exhibitors.

Attend at least six Rotor Safety Challenge sessions at HELI-EXPO 2016 and receive a certificate of recognition for completing the 2016 HAI Rotor Safety Challenge.

Take the Safety Challenge in three simple steps: Select safety sessions to attend from the HAI Rotor Safety Challenge Schedule. To see the full Safety Challenge schedule, visit <http://www.rotor.com/takethechallenge>.

Event Details

Wed, Mar 2, 2016 - 13:00 EST

Kentucky Exposition Center

937 Phillips Ln

South Wing C

Louisville, KY 40209

Contact: HAI

(703) 683-4646

education@rotor.org

Select #: EA2564941

Representative Anne Nevel

At the conclusion of each session, receive an official token from the room monitor or presenter. Once you have earned at least six tokens, drop by the HAI Safety Committee Booth on the show floor, turn in your chips to a committee member, and immediately receive a certificate of recognition.

For more information and questions contact HAI at 703-683-4646, education@rotor.com, or visit: <http://www.rotor.com/takethechallenge>.
